HERCULAN SPORTS

† Artificial Turf Pitch by S&C Slatter, Sports Construction Specialist

HERCULAN RB-S

A single component product formulated on the basis of moisture-curing polyurethane resins. Herculan RB-S does not contain solvents or plasticizers. Used as an elastic matrix compound for embedding SBR RUBBER or EPDM granulates for usage in shock pads or e-layers.

- Permanent bonding performance on various substrates.
- Shrink-free, solvent-free.
- Impact resistant.
- Density at 20°C: 1100kg/m³
- Can be walked on after 24 hours approx. (at 20°C)
- Fully cured after approx. 6 days approx. (at 20°C)
- Available in 215kg drums and 1000kg IBCs (Intermediate Bulk Container).

HERCULAN RB-N

A single component product formulated on the basis of slow curing polyurethane resins. Herculan RB-N/SR150B does not contain solvents or plasticizers. Used as an elastic matrix compound for embedding SBR rubber granulates and EPDM.

- Permanent bonding performance on various substrates.
- Shrink-free, solvent-free.
- Impact resistant.
- Density at 20°C: 1100kg/m³
- Can be walked on after 24 hours approx. (at 20°C)
- Fully cured after approx. 6 days approx (at 20°C)
- Available in 215kg drums and 1000kg IBCs (Intermediate Bulk Container)

HERCULAN SR SPRINT

Sandwich construction, extremely spike-resistant, structured surface provides excellent conditions, even when it is wet or raining.

Surface is suitable for all outdoor or indoor, national or international athletic competitions.

The high performance, seamless surface of the Herculan SR Sprint system is an in-situ applied rubber base (SBR) layer, covered with a colored EPDM embedded elastomeric premium polyurethane wear layer.

HERCULAN SR NATIONAL

The high performance, seamless surface of the Herculan SR National system is an in situ applied rubber base layer covered with multiple layers of structured, polyurethane spraycoat.

The spray coat tracks are water permeable, spike resistant, UV and all weather resistant.

Herculan SR National is suitable for outdoor running track and multi purpose applications
